The month of April will be busy as we focus more on our lovely season of spring, baby animals, rain, flowers, insects and Easter! We will continue activities to reinforce our numbers, colors and shapes.

Happy
Ea'ster!

In the month of March we are studying clothes. The 4 yrs old children are very interested about the different types of clothes and they really like dressing up. We discussed about the different types of fabrics and their uses in our clothes and the different types of clothes we wear in different seasons. As they are practicing writing letters they have started to write small sentences too. They are practicing counting and writing numbers. They are learning the names of different tools to measure too. I see they have started to use fuller sentences to express when they talk.

Thank you so much
