**2026**

Happy New Year! and welcome back!

Hope you all had a wonderful Christmas, can you believe we are already talking about January!

During this month our class activities will be focused on winter, making snowmen and talking about winter animals and hibernation.

Our letters for the month will be D, P, B and R.

We will continue to work on our fine motor skills daily and also our social skills and independence, I would like to add the children are doing so well with sharing, taking turns and showing empathy 😊

We do try and go outside each day so please make sure your child has an appropriate coat/ jacket.

Thank you so much  
Ms Lindsey

Happy New Year and welcome back! I hope you had a wonderful Christmas and a relaxing break with your families. December was filled with learning and experiencing the joy of Christmas by celebrating the birth of baby Jesus, reading Christmas stories, singing songs, and crafting lots of festive decorations.

This month, we will continue with our seasons and discover the marvels of winter. We will have fun with snow and ice, learning about hibernation, winter animals, and learning with letters D,B,Pand R. With the colder weather, please update your child's clothing in their book bag.

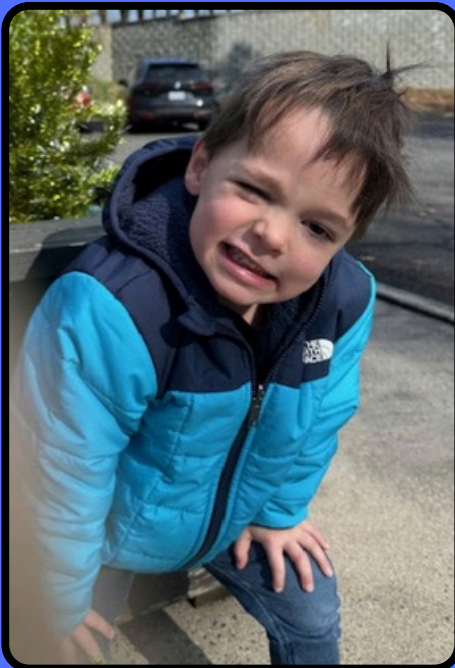

I am looking forward to a fresh start to the new year in 2026!

Happy birthday to Declan this month.

Ms. Trish

Happy New Year!  
Hope everyone had great holidays.

Children did great at Christmas Concert. All children practiced very hard and it was very nice to see them singing well.

Amaliya's mom came to read for children second time. She read many Christian's books, and children really enjoyed them. Thank you so much, Mrs. Menard, for coming and reading for them.

January, we have a Library lady come to read us on Mon Jan 12th. We will continue to work on counting numbers and colors this month.

Lots of children are doing well potty training. I will continue to encourage children. Please reach out to me if you have any questions or concerns.

We have a holiday, Martin Luther King Jr. Day on Mon Jan 19th.  
School will be closed.

Fri Jan 23rd is teacher work day, school is closed, too.

Ms. Fumiyo

Happy December! It is a joy to share the magic of the season with your little ones. This month is all about christmas songs, crafts and the wonder of holiday season. We are busy preparing for christmas concert that we hope you will cherish for years to come. We are super excited.

Ms. Shubham

Dear Parents,

Greetings! 🎄

I am excited to share some wonderful moments and learning experiences from our classroom this month.

The children have been joyfully engaged in festive activities . The children practiced “Jingle Bells” in preparation for our Christmas celebration. They also enjoyed singing familiar rhymes such as “Wheels on the Bus” and “Head, Shoulders, Knees, and Toes”

Our little learners participated in a fun Snowman Art Activity. We also enjoyed a Christmas Tree Ornament Activity. Hopefully they will hang it on the Christmas tree at home.

We also did some sensory activities like playing with play dough which helps sensory development while allowing children to relax and have fun.

For the month of January, we will be welcoming kids back to school after Christmas break. I know it will be little hard for our little ones to join school again but as parent and teacher, we can do it together and make the kids love the school again!! We will continue doing rhymes which will develop their language skills.

Also we will do some new year activities. We will enjoy outdoor play time if it's not that much cold. Thank you for your continued support and involvement.

Merry Christmas and happy holidays 🎄!

Warm regards,  
Ms. Sneha

Head Shoulders  
Knees  
and  
Toes

In the month of December, we continued with the Tree study. We have learned and discussed the different parts of the tree, where trees grow, how a tree can stay strong on the ground, types of trees, the life cycle of a tree, and the different shapes we can see that a tree can form. We also learned about the colors of leaves, why we can see different colors of leaves in different seasons, the animals that live in trees, and what type of nest they make in trees. Additionally, we learned what foods we get from trees, and what other materials we get from trees to use in our everyday lives. We investigated the tree's bark, the animals living on the tree, and the types of trees they saw outdoors. The 4-year-old children collected the tree parts and completed a project on their collection. Along with the tree study, we continue to practice rhyming words, opposites, and compound words. They have a nicely crafted Christmas tree and a snowman to celebrate this festive month. Next month, in the new year, we will start learning about buildings.

Thank you,

Subhanwita Ghosh

Happy  
New Year

2026
